

NXT-ID Releases Wocket Mobile App; Enables First Software Update for Improved POS Performance

August 31, 2015

OXFORD, CT, Aug. 31, 2015 /PRNewswire/ -- NXT-ID, Inc. (NASDAQ:NXTD) ("NXT-ID" or the "Company"), a biometric authentication company focused on the growing mobile commerce market and creator of the Wocket® smart wallet, announces that it has released the first version of its My Wocket® app to enable software updates.

This app supports iOS and Android and, in the near future, Windows and OSX. My Wocket enables remote software updates to NXT-ID's Wocket and Wocket Card devices.

"This is the first of several applications and updates that we will be sending to our customers to add new features and improve performance," says David Tunnell, Chief Technology Officer of NXT-ID. "This first app allows our customers to remotely update the Wocket and Wocket Card software as customers provide feedback. This first software update includes bug fixes, adds more data for loyalty and gift cards, and improves performance at point-of-sale systems. We will continue to improve Wocket, Wocket Card and our My Wocket apps with updates that will include card management, Voicematch® training for our voice biometric verification, and autofill to automate passwords and on-line purchases."

Gino Pereira, Chief Executive Officer adds, "This app demonstrates our ability to securely update Wocket and Wocket Cards so that our customers can always have the best possible experience as we continue to improve Wocket. We wish to thank our customers who have helped us with invaluable feedback to improve Wocket performance, and make Wocket the smartest and most secure wallet available today."

Wocket® is a smart wallet designed to protect your identity and replace all the cards in your wallet. Wocket works most anywhere credit cards are accepted and only works with your biometric stamp of approval or passcode.

All your credit, debit, loyalty, gift, ID, membership, insurance, medical information, passwords, and virtually any other information can be protected on Wocket.
