About LogicMark

Founded in 2006, LogicMark has revolutionized the personal emergency response system (PERS) industry by incorporating patented two-way voice communication technology directly in the medical alert pendant. With a focus on innovation, LogicMark provides a unique offering of medical alert systems that contribute to improving the quality of life for those choosing to continue to live independently. <https://www.logicmark.com/>

About WorldVentures

WorldVentures Marketing, LLC, a privately held company based in Plano, Tex., is a global travel club that sells memberships providing a diverse set of lifestyle products and experiences. The company uses the direct sales model to go to market with active Representatives and Members in 29 countries. <http://worldventures.com>

About NXT- ID Inc. - Mobile Security for a Mobile World

NXT-ID is an emerging growth technology company that is focused on products, solutions, and services for security on mobile devices. Our core technologies consist of those that support digital payments, biometric identification, encryption, sensors, and miniaturization. We have three distinct lines of business that we are currently pursuing: mobile commerce, primarily through the application of secure digital payment technologies; biometric access control applications, and Department of Defense contracting. <http://www.nxt-id.com>

Forward-Looking Statements for NXT-ID: This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements reflect management's current expectations, as of the date of this press release, and involve certain risks and uncertainties. Forward-looking statements include statements herein with respect to the successful execution of the Company's business strategy. The Company's actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors. Such risks and uncertainties include, among other things, our ability to establish and maintain the proprietary nature of our technology through the patent process, as well as our ability to possibly license from others patents and patent applications necessary to develop products; the availability of financing; the Company's ability to implement its long range business plan for various applications of its technology; the Company's ability to enter into agreements with any necessary marketing and/or distribution partners; the impact of competition, the obtaining and maintenance of any necessary regulatory clearances applicable to applications of the Company's technology; and management of growth and other risks and uncertainties that may be detailed from time to time in the Company's reports filed with the Securities and Exchange Commission.
